

St. John's Vision 2025

(What we said we'd like to see in place in 3-5 years after our parish-wide discernment in 2018-19.)

Transforming Lives Through Christian Formation

Offering classes for adults that will lead to personal transformation and growth. Engaging more children in our Sunday School. Training people how to speak about and share their faith with others.

Including:

Expanded, Thriving Community of Servants

Raising up new lay leaders within the congregation.

Inspiring Spiritual and Civic Engagement in the Next Generation

(children's ministry)

Pastoral Care:

A Broad Response to Health & Emotional Needs

Organizing and structuring our current pastoral care ministries (visiting people, prayer chain and prayer list, etc.) and adding additional ministries in this area.

Dynamic Serving Presence in the Community

Building on previous outreach and justice work, becoming truly present in our community and responding to its needs.

Including:

Worship Without Walls

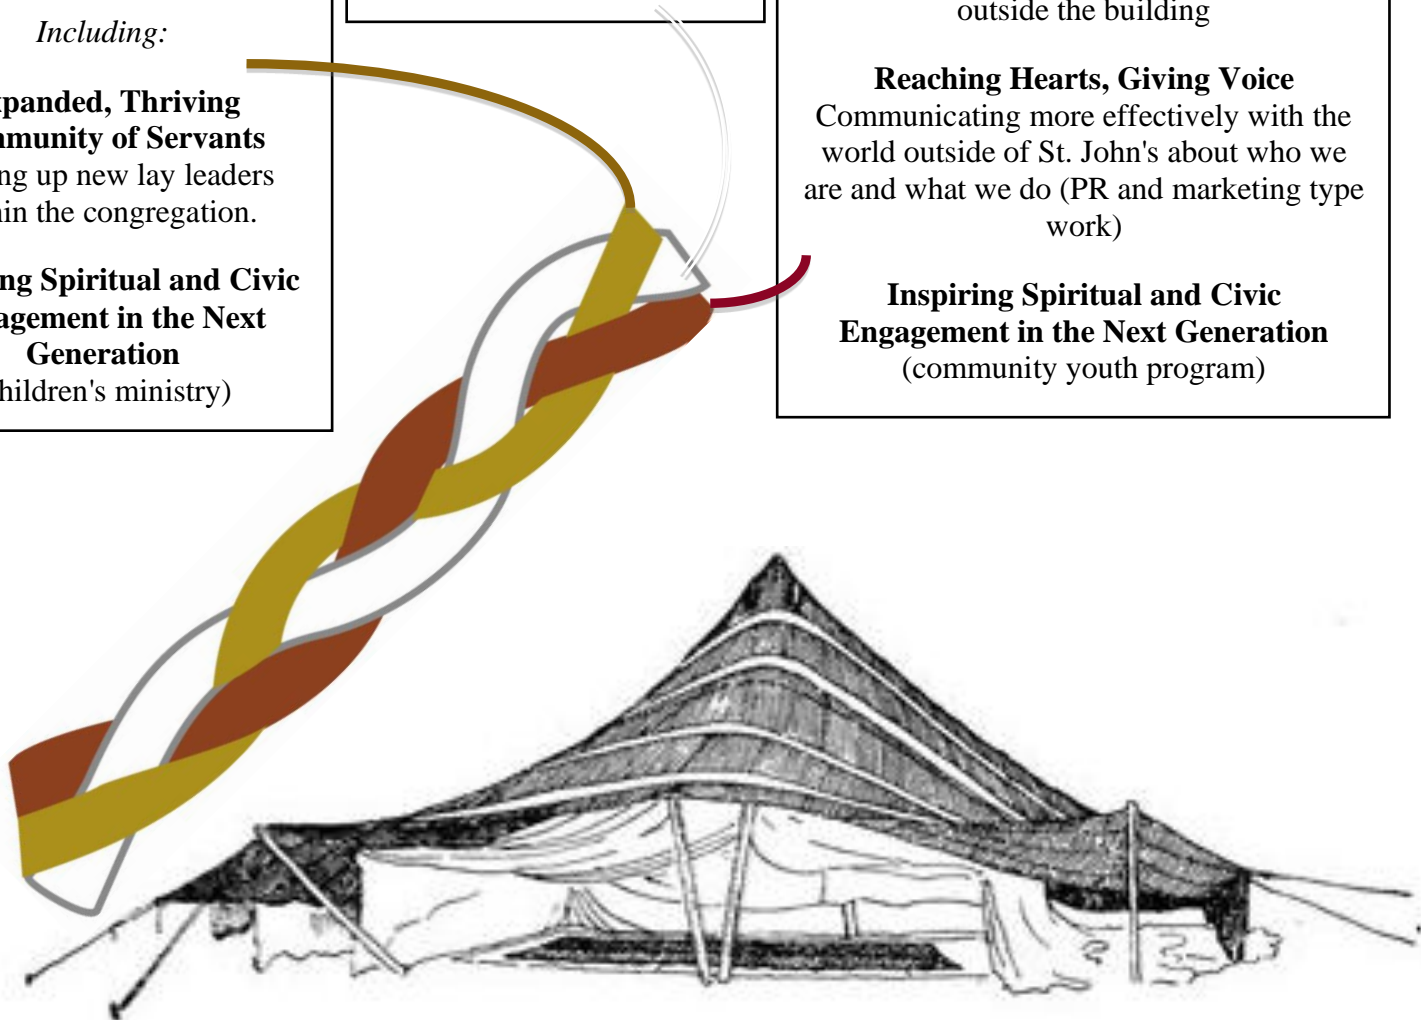

Expanding our current worship offerings to reach a wider audience; taking church outside the building

Reaching Hearts, Giving Voice

Communicating more effectively with the world outside of St. John's about who we are and what we do (PR and marketing type work)

Inspiring Spiritual and Civic Engagement in the Next Generation

(community youth program)

Life-Giving Spaces to Enable God's Mission

Expanding our meeting and worship space to meet the needs of the ministries to which we are called.

Abundance of Resources & Support

Supporting all of the above, both financially and with people-power. Expanding our staffing to support growth into a larger-sized parish.
